## About Me

---

Final-year Computer Engineering student with a strong foundation in Statistics, networking, and Data Science. Seeking opportunities to apply technical skills in real-world projects and internships to gain hands-on experience

## Technologies

---

**Languages:** C++, SQL, JavaScript, Python, HTML, CSS

**Technologies:** Github, Tableau, Kaggle, Machine Learning, Data Analytics

## Projects

---

### COVID-19 Dashboard

[Tableau.com/dashboard](https://Tableau.com/dashboard) 

- Tableau dashboard for COVID-19 with Region specific data to show insights on various factors using dataset containing data from 2020.
- Tools Used: Tableau

### NN using MINST dataset

[github.com/ShrinivasanT](https://github.com/ShrinivasanT) 

- Developed a neural network using TensorFlow to classify handwritten digits from the MNIST dataset with 97% accuracy. Implemented data preprocessing, model training, and evaluation with visualization of results
- Tools Used: Python, Numpy, Pandas

### Alzheimers Prediction CNN

*Currently developing*

- Building a CNN model using Keras to detect Alzheimer's disease from brain MRI image data. Performed image preprocessing, model training uptill now.
- Tools Used: Python, TensorFlow, Kaggle, Pandas

## Education

---

### RMD Sinhgad Technical Institute

*July 2022 – June 2026*

*BE in Computer Science*

- CGPA: 7.9/10.0
- **Coursework:** Computer Architecture, Comparison of Learning Algorithms, Data Science

## Experience

---

### Data Analytics

*Remote*

*Deloitte - Forage*

*10 June 2025*

- Completed practical tasks involving data analysis and forensic technology.
- Built a dashboard to explore the client's telemetry data.
- Helped team complete an investigation into unfair pay.

## Misc

---

- ACES Tech Team Member
- Training and Placement Co-ordinator
- Badminton, Gym, Guitar
